## PARADE IN LONDON.

Queen Victoria's Diamond Jubilee Celebrated.

PAGEANT OF GREAT BRILLIANCY.

Impressive Ceremonies at the St. Paul Cathedral—Hundreds of Thousands Witness the Parade—The Whole Affair Passed Off Without a Hitch—There Were No Serious Accidents.

LONDON, June 23.—The queen's diamond jubilee celebration, which began Sunday with religious services at Frogmore, Windsor, reached its climax yesterday. The weather was warm, but not too hot, and, altogether, the day was an ideal one for the occasion. Long before the time set for the parade to start every inch of available space along the line of march was occupied.

Promptly at the hour appointed the queen, the field marshal in charge of the head of the column of the royal procession, was at the Wellington statue at the Hyde Park corner, to receive the signal that the queen had entered her carriage, and at 11 o'clock the starting gun in the park was fired. The progress of the parade toward St. Paul's cathedral, whither the colonial procession had already gone, was made with few delays. As a mere spectacle the royal procession was truly magnificent, but as a symbolization of powers and power it eclipsed all previous pageants ever witnessed in London.

Captain Ames, the tallest officer in the British army, mounted on a great charger, led the way, supported by four troopers of the second life guards. Then followed representatives of the naval gun force and the royal horse artillery came next and other detachments of the army.

Military bands were interspersed at frequent intervals throughout the procession. Indeed, such a prodigality of music has never been seen in any previous parade in London. Following the regular troops were the naval and military aids-de-camp to the queen, these including many of the most distinguished officers in the two services.

The foreign naval and military attaches were next, including Major General Miles, Lieutenant Colonel Well, United States naval attaché, and Major Lindlow, formerly United States military attaché. The Americans wore modest uniforms, but attracted a great deal of attention.

The ambassadors came next, and by this time the interest of the spectators had become most intense. These gentlemen occupied five magnificent landaus, there being four occupants in each vehicle. Eleven similar carriages followed, containing the highest court dignitaries and female members of the royal family. At length came the personal escort of the sovereign, and the enthusiasm of the vast throng rose to a pitch. Following there were a contingent of life guards and then an escort of English and foreign princes riding on horseback in threes.

Field Marshal Lord Wolseley, commander-in-chief of the British army, rode by alone and then was seen the chariot in which sat the queen.

As her majesty approached the cheers were deafening and overwhelming. The queen sat apparently unmoved at this popular ovation, though she was several times compelled to show the emotion she felt. While she was the recipient of the grandest outpouring of popular admiration and affection ever vouchsafed to a sovereign, she could unfortunately see little or nothing of the grandeur of the pageant of which she was the central figure.

The queen's carriage reached Temple Bar at noon, where the lord mayor rendered official homage to the sovereign. Her majesty then commanded the lord mayor and sheriffs to proceed and the procession moved toward St. Paul's amid roars of cheers.

The great bells of St. Paul's broke out in happy chorus as the queen's carriage started from Temple Bar and only ceased as her majesty's carriage stopped in front of the steps of the city cathedral.

With the stopping of the queen's carriage, the picture was complete, and the swelling hymn that had risen on the summer air from five choristers of her majesty's chapel royal, Westminster abbey and St. Paul's ceased its grand harmonies in one long drawn soft "Amen." The service was about to begin.

The ecclesiastics who had issued from the great west door as the queen approached standing beside the improvised altar now began the simple service. A te deum by Dr. Martin, organist of St. Paul's, composed for the occasion, was sung.

As the sonorous "Amen" died away the sweet voices of the cathedral clergy were heard chanting "O Lord save the queen," to which the great choir in a wondrous volume of harmonious sound responded, "and mercifully hear us when we call upon thee."

The bishop of London in full canonicals then read a short collect, after which, as her majesty sat with bowed head, the archbishop of Canterbury announced the benediction.

Then amidst the further ringing of bells, the national anthem was sung and the queen drove on into other scenes.

At the Law Courts, the queen was met by the lady mayoress, who presented her majesty with a basket of flowers. The queen reached the palace on her return from the procession at 1:45 p. m. She was very much pleased and smiling and was not over-fatigued.

The whole affair passed off without a hitch. There was no serious accident, although a number of women fainted and a man fell out of a tree on the Mall. The queen witnessed this and promptly

sent one of her equerries to enquire as to the man's condition. The queen has sent the following message to the British colonies and to India:

"From my heart, I thank my beloved people. May God bless them." Yesterday evening her majesty gave a family dinner in the state supper room of Buckingham palace at a quarter to nine. All the members of the royal family were present as well as the other royal guests. Their suits dined in the garden vestibule.

Dispatches received here from all the British colonies announce the holding of jubilee reviews, official receptions, the giving of dinners to the poor and the illumination of cities throughout the British empire last night. In addition to the celebrations, in all the British colonies, nearly all the foreign cities had fetes, decorations and illuminations.

### ROBBED THE RAILROAD.

Paid Pay Rolls Discovered Along the Santa Fe Route.

KANSAS CITY, June 23.—The pay car run last week by the Santa Fe Railway company over its Chicago division between Kansas City and Chicago, has returned to Topeka. The result of the investigation has not been given out, but according to reports from Chicago the amount the company has been robbed of by padded pay rolls will approximate \$80,000.

The pay car left Chicago last Tuesday and paid west to Marceline, Mo. From there it went over the St. Joseph branch. Then it went back to Marceline and paid between that place and Kansas City, reaching Topeka Saturday evening. Between Chicago and Kansas City it paid only the section men and other gang hands. The checks for the trainmen were left at the division points as usual, but on the St. Joseph branch trainmen and all were paid from the car.

Assistant General Superintendent Turner and Chief of Detectives Kinney were on the car and attended personally to the work of handing out the checks.

General Manager J. J. Frey and other high officials of the Santa Fe refuse to disclose the result of the investigation. Every move is made secretly, and in punishing guilty officials or forcing them to give up the stolen money the same policy is pursued.

### NO FOREIGN OBJECTION.

Neither China Nor Portugal Have Protested Against the Hawaiian Treaty.

WASHINGTON, June 23.—Neither the Chinese nor the Portuguese minister has made a protest against the Hawaiian treaty of annexation, nor has either of them received any instructions on the subject from his government. Viscount de Santa Thyrso, the Portuguese minister, says he has no doubt but that the Portuguese colony in Hawaii will be as amply protected under the laws of the United States as under the present regime on the islands, and he sees no possible reason why Portugal should lodge a protest against the treaty.

The Chinese minister is inclined to think the clause in the treaty, excluding the further immigration of Chinese to the islands is unnecessary as the exclusion act would apply to them if our jurisdiction were extended to Hawaii. China has assented to the policy of exclusion and he sees no necessity for comment on that score. There are about 25,000 Chinese in Hawaii.

### PRESIDENTIAL NOMINATIONS.

A Number of Consular Appointments Sent to the Senate.

WASHINGTON, June 23.—The president has sent the following nominations to the senate:

John Goodnow of Minnesota to be consul general at Shanghai, China.

Horace W. Metcalf of Maine, consul at Newcastle-on-Tyne, England.

L. Edwin Dudley of Massachusetts, consul at Vancouver, B. C.

William J. Jarvis of New Hampshire, consul at Milan, Italy.

Philip Gallagher of Washington, to be a commissioner in and for the district of Alaska.

J. Otis Humphrey, to be attorney for the southern district of Illinois.

Charles P. Hitch, marshal for the southern district of Illinois.

James M. Shoup of Idaho, marshal for the district of Alaska.

Richard Yates of Illinois, collector of internal revenue for the Eighth district of Illinois.

### Meyer Lehman Dead.

NEW YORK, June 23.—Meyer Lehman is dead at his home in this city, aged 67 years. He was a native of Bavaria, and came to this country with his two brothers and settled in Montgomery, Ala., where they started the firm of Lehman Brothers. In 1864 Mr. Lehman was appointed by the governor of Alabama to visit the Confederate soldiers confined in northern prisons. In 1867 Mr. Lehman came to New York. Aside from his large mercantile interests he engaged in railroad, mining and industrial enterprises, and was one of the 20 men who established the first iron furnace in the south before the war.

### Receivers For a Coal Company.

NEW YORK, June 23.—Henry S. White and Elmer E. Stockton have been appointed receivers for the Randolph Coal and Coke company, that operates mines near Sparta, Ill. The application was made by Francis M. Fillette, president of the company. It was shown that the assets were only \$100,000, owing to the depreciation of the company's lands, while the liabilities are \$717,000. Of this, \$500,000 is for capital stock, \$200,000 for bonds and \$17,000 for floating debt. Some of the stockholders alleged that the officers had been guilty of extravagance.

## FAMINE AND PLAGUE.

Twin Horrors That Blacken the Horizon of India.

THOUSANDS ARE DYING DAILY.

The People Are Mere Skeletons, Living on Roots and Grass and Leaves and Glad to Get Them—Horrible Story Told by a Missionary Who Has Just Returned From India.

NEW YORK, June 23.—Robert P. Wilder, an American Presbyterian missionary from Poona, India, has just arrived in New York. In an interview he said: "The plague is abating in India, but the famine is at its height. The plague has been as bad in Poona, in proportion to its size, as in Bombay, where 11,000 have died, but it is lessening. It moves in a line, like a cyclone, and was traveling northwest. None of the people in a city through which the plague passes will get it unless they are in the plague belt or someone who has taken the malarial carries it across to another quarter. It originated, no one knows how, in an airy house in Bombay, on a wide street. The conditions of the building were far more sanitary than thousands of others. "A Calcutta doctor who look at it said, 'well, if the plague can start in a house like that, what will it do when it strikes Calcutta?' One cause of the spread of the disease among the natives is said to be their practice of walking barefooted, for even insects transmit it.

"A friend of mine entered a house where a plague patient had died to get some of the soil for analysis. The government officials refused to let him have it. Receiving permission to 'disinfect,' he threw some sugar on it and afterward took the sugar to get some ants which had collected there in his handkerchief and carried them off. Every one of those ants took a plague microbe with it.

"The famine is the great thing there now. I just got a letter saying that the people were dying by hundreds. It is hard to know how to help them, as they have no seed to sow, even if rains come, and their plowing oxen have died. There is plenty of grain in India, but the banyans, or merchants, have it stored up in hidden pits and don't sell it except at ruinous prices. Some have thought that a cause of the plague was the putting on the market of the grain 20 years old. The government made a great mistake in not beginning their aid earlier. The trouble is with the native overseers, who rob the people frightfully. They are paid in proportion to the number of people they feed and mix earth in the grain to make their supplies go a long way. I know of one man who got grain to distribute free and sold it at auction.

"The people are mere skeletons, living on roots and grass and leaves and glad to get them. Their troubles have bred queer ideas in them. Some of them think Queen Victoria has sent the plague in revenge for the daubing of her statue in Bombay. Many of them refuse to go to the segregation hospitals, because they think it is the intention of the government to put them out of the way when it gets them there. In some cases they have practically shut up their houses with dead bodies in them and searching parties have been organized to unearth the corpses. The money relief offered hitherto for the distress in India has been merely a drop in the bucket."

### CHRISTIAN K. ROSS DEAD.

He Was the Father of Charley Ross, Who Disappeared Years Ago.

PHILADELPHIA, June 23.—Christian K. Ross is dead of heart disease at his home on Washington avenue, Germantown. He was the father of Charley Ross, and up to his last illness Mr. Ross never gave up the search for his missing boy, whose abduction started Philadelphia on July 1, 1874, and became an unsolved mystery the world over.

In all the long years since, the father, aided by members of his family, searched in vain to find his missing boy. Mr. Ross was not a wealthy man, but he had rich relatives, and money was spent like water to aid the search. But it was all useless. Imposters sprang up from everywhere. Mr. Ross was called to all parts of the country to identify claimants, but was always doomed to disappointment.

Mr. Ross was born in Middletown, Pa., Nov. 6, 1823, and after receiving an education in the private schools of Middletown and Carlisle, came to this city in 1838, where he secured employment in a wholesale dry goods house. He afterward became one of the firm of Ross, Shott & Company. He was appointed master warden of the port of Philadelphia by Governor Hartran for the salary of \$2,500 a year.

### LONE-HANDED HIGHWAYMAN.

Express Train on the Louisville and Nashville Railroad Held Up.

NASHVILLE, June 23.—Only partial information is yet obtainable of a hold-up on the Louisville and Nashville railroad between Clarksville and Guthrie, about 9 o'clock last night near St. Bethlehem. One man armed with two pistols, sacked the express car and obtained, according to reports in Clarksville, from \$2,000 to \$4,000.

The express car was in charge of Messenger L. C. Brennon. The train, No. 102, left Memphis at 2 o'clock in the afternoon. The robbery occurred four miles east of Clarksville at 9:35 o'clock. It is supposed the robber boarded the train at Clarksville. When a few minutes out he entered the car and ordered the messenger to open the safe, which

was done. After securing some money the robber pulled the bell cord. When the train slackened its speed he jumped off and made his escape.

The passengers were not disturbed and knew nothing of the robbery until it was reported by the messenger.

### FIXED UP TO READ NICE.

Weyler Permits Some More Dispatches to Be Sent Out From Havana.

HAVANA, June 23.—Captain General Weyler sailed last night for Sagua Le Grande, province of Santa Clara, on board the Spanish cruiser Hernan Cortes. From Sagua he will go to Cienfuegos, Manzanilla, province of Santiago de Cuba, having previously sent a strong force of cavalry and other troops to that part of the island in order to commence operations against the insurgents in the east and in the province of Puerto Principe.

It is officially announced that a detachment belonging to the battalion of Cuba has defeated an insurgent force at Pan de Azucar, province of Pinar del Rio, killing 19 of the enemy. The same Spanish force, the official report adds, killed 16 more of this band of insurgents at other places.

The Spanish gunboat Rein Cristina, while reconnoitering the river Saint Anne with her boats, had her sailors fired upon by a force of insurgents. The gunboat was compelled to land a force of marines who dislodged the insurgents at the point of the bayonet.

Captain General Weyler's decree, authorizing certain public works with a view of giving employment to the "reconcentrados," was issued yesterday. It provides for the immediate construction of several new high roads and for strategic railway lines in the provinces of Pinar del Rio, Havana, Matanzas and Santa Clara. It is estimated that the various undertakings will involve the employment of 3,350 men.

The Spanish gunboat Cuba Espanola, acting in conjunction with a detachment of Spanish troops, whose landing she protected with the fire of her guns, has defeated an insurgent force in the vicinity of Campechula. The insurgents are said to have retired with the loss of 100 men killed.

Miss Mary Maud Wilberforce of the British Red Cross society, has arrived here by the steamer Leonora in order to attend the sick and wounded soldiers.

The Gazette prints a decree, signed by the captain general, pardoning 131 persons previously banished from the island.

### No Note From the United States.

MADRID, June 23.—An official denial has been made of the statement that the United States government has sent a fresh note to the government of Spain on the subject of Cuba.

### FIDELIS MAUTE DEAD.

He Was One of the Most Prominent Catholic Priests in Southern Indiana.

JASPER, Ind., June 23.—The Rev. Fidelis Maute, one of the most prominent Catholic ministers in southern Indiana, died here yesterday.

Fidelis Maute was born March 18, 1837, at Inneringen, in the principality of Signaringen, Germany. He studied at his native place, then at Einsiedeln, and finally at the seminary of Mayence. On May 9, 1861, he arrived at St. Meinrad, Spencer county, where for several years he was a successful teacher, especially in Greek. On Jan. 2, 1864, he was ordained priest by Bishop De St. Palais, at Vincennes.

He began the building of the church at Jasper, Dubois county, laying the cornerstone on Sept. 14, 1871. This church is one of the finest in southern Indiana. During his long pastorate at Jasper he bound the people to him so closely that his death will be a loss, not to Catholics alone, but to the entire community. He was a member of the order of St. Benedict. No clergyman in southern Indiana was better known or stood higher than he.

### Madeline Pollard Heard From.

LONDON, June 23.—Madeline Pollard, plaintiff in the suit against former Congressman W. C. P. Breckinridge of Lexington, Ky., and who disappeared after the sensational trial, which resulted in a verdict in her favor for \$15,000 damages, has been living quietly in London. She is apparently in good circumstances and is understood to be studying with the view of engaging in literary work. She intends to make England her home.

### A Peculiar Notice to Employes.

ELWOOD, Ind., June 23.—The managers of the glass chimney factories west of Pittsburg have given notice on their pay envelopes to employes that they may consider themselves discharged on the 30th inst., the time for the summer shutdown, and that no application for employment will be considered until the new wage scale is arranged. The employes are wondering what this means.

### Half Killed by a Cousin.

ELWOOD, Ind., June 23.—The 14-year-old son of Elmer Noble, a farmer, lies hovering between life and death, with no hope of recovery, the result of a blow on the back of the head inflicted by his cousin, a son of Isaac Goodman. His skull is crushed, his cousin striking him with a gun barrel.

GREAT BEND, Kan., June 23.—Water has been turned into the great Koen irrigation ditch through one gate and in 10 hours the first four miles of the ditch contained an average of three feet of water. Koen expects to have water on a farm near this city which he has leased for irrigation purposes, and will then demonstrate to farmers the benefits of practical irrigation. The test of the ditch and headgates was entirely satisfactory in every respect.

## REPUBLICANS OF OHIO

Meeting of the State Convention at Toledo.

SENATOR HANNA IN CONTROL.

His Candidate, Major Charles F. Dick, Selected For Chairman of the State Campaign Committee—No Opposition to the Renomination of Governor Bushnell and Other State Officers—State News.

TOLEDO, O., June 23.—The Ohio Republican state convention assembled here yesterday. The occasion has been one of bitter factional fighting for two days. There is no opposition to the endorsement of Senator M. A. Hanna for both the long and short terms as senator and there is no opposition to the renomination of Governor Bushnell and other state officers who have had only one term. The contest has been on the state campaign chairmanship. Senator Hanna wanted Major Charles F. Dick, secretary of the national committee, for this place. Governor Bushnell and other state officers wanted Chairman Charles L. Kurtz, who has managed the past two campaigns, retained in that place. Senator Foraker was not here, but it is known that he supported Governor Bushnell and Chairman Kurtz as strongly as possible by wire.

It has been the custom for the head of the state ticket in Ohio to name the chairman of the state executive committee, but Senator Hanna has the convention here in hand today, and he will not perfect the party organization according to precedent.

The contending factions carried their claims into the meetings of the delegates by congressional districts, and Mr. Hanna won more than two to one. He controlled the district meetings and the convention more firmly than the St. Louis convention last year. Major Dick claims the committeemen from 15 of the 21 congressional districts with two districts contested and four districts conceded to Kurtz. The Kurtz men concede their defeat, but claim eight out of the 21 committeemen.

The state convention was called to order in the elaborately decorated armory shortly after 4 p. m. All the 5,200 seats were occupied and standing room was in demand. After music by the Apollo club of Toledo and the Ladies' McKinley quartette of Weston, prayer was offered by the Rev. J. W. Hill of Fostoria.

H. H. Crouse, chairman of the state central committee, before announcing the temporary officers of the convention, reviewed the Republican triumphs in Ohio since 1893, and then introduced General C. H. Grosvenor as the temporary chairman of the convention.

When the congressional districts were called it was announced that there were contests in the Fourth and Eighth districts, so that the state committeemen from those districts could not be named till after the report on credentials was adopted. The following is the new state central committee:

First district, Vivian J. Fagin; Second, Peter Darr; Third, John E. Feighth; Fourth, —; Fifth, N. E. Matthews; Sixth, Charles Fisher; Seventh, Harry M. Daugherty; Eighth, —; Ninth, Frank Thompson; Tenth, H. S. Willard; Eleventh, General Charles H. Grosvenor; Twelfth, Cyrus Huling; Thirteenth, Thomas P. Dewey; Fourteenth, W. W. Skyles; Fifteenth, W. M. Miller; Sixteenth, Leroy C. Sedgwick; Seventeenth, M. L. Smyser; Eighteenth, W. C. Weirick; Nineteenth, Frank M. Reitzel; Twentieth, Dr. R. S. Hubbard; Twenty-first, B. Mahler.

### WOUNDED AND ROBBED.

An Unknown Man Who Refuses to Give an Account of Himself.

SINKING SPRINGS, O., June 23.—Clarence Holman, a farmer near here, found an unknown man lying unconscious in the woods near his residence. The man had a serious wound on his head and his pockets were turned inside out, making robbery appear as the motive for the crime.

The injured man appears to be about 45 years old, is about 5 feet 9 inches tall, with gray hair and dark eyes and dressed in a dark blue suit. He regained consciousness, but refused to give his name or home. He is being cared for by Mr. Holman and efforts made to discover his identity.

### Meteorite Stone Found.

BOWLING GREEN, O., June 23.—A large aerolite or meteoric stone has been discovered on the Abner Erskine farm near this city. It is about five feet long and three feet in diameter, is cylindrical in shape and will weigh at least a ton. On the outside is a fused black crust separated from the inner mass by a well defined line. The formation has decidedly a metallic appearance, resembling iron, and the presence of sulphur can easily be detected.

### Young Man Instantly Killed.

MONROE, O., June 23.—Tom Davis, 19 years old, who was beating his way from Chillicothe to Xenia on the Cincinnati, Hamilton and Dayton railroad, fell from the cars near here and was instantly killed, his body being horribly mutilated. He was sitting on the bumpers with some companions and is thought to have fallen asleep.

### Probably Learned Some Sense.

### THE TURNPIKE QUESTION

Rapidly Reaching a Happy Solution in Kentucky—Public Highways Should be Free.

[Louisville Dispatch.]  
The turnpike question in Kentucky seems to be rapidly reaching a happy solution.

It cannot be questioned that the turnpike raiders have had grievances. This is no less true than that their method of endeavoring to right their wrong is absolutely indefensible.

Public highways are a public necessity, and should be public property. There is no more reason why there should be a tollgate across the public pike in the country than at every street corner in the city. Pikes are as necessary to the country people as streets are to the people of the city. They should be constructed, maintained and owned by the public.

It is only a matter of a short time when private property in public roads in Kentucky will be abolished, but the change should by all means be brought about by just and legal methods.

### Seedless Watermelons.

Think of having seedless watermelons, transparent, juicy pulp with no seeds to hinder your enjoyment. Think of having a musk melon sweet and luscious to its center. Is not this worth trying for, worth a little experimenting? Try it. When the vines have grown some three or four feet, cover the stalk at third or fourth leaf, and keep it covered until it takes root, which will take from two to three weeks. After it has taken root, the vine must be severed from the parent stalk. The new plant will produce seedless melons. Try it and see what can be done.—New York Tribune.

### Attractive Women.

Why is one woman attractive and others not? The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. She must have health, of course, because without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Real health must mean that a woman is really a woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Some are born with what is called "constitutional weakness." Those who do not enjoy perfect health, need only take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism.

### TERRIFIC HAILSTORM.

It Struck a C. and O. Train and the Passengers Had to Seek Shelter Under the Coaches.

RICHMOND, Va., June 21.—News reaches here that a terrific hailstorm struck a Chesapeake and Ohio train at Fishersville, in Augusta County, yesterday afternoon. The train was waiting for a freight, which had met an accident, to pass. Hailstones fell as large as eggs and broke the glass in eighty-one windows. The passengers were horror-stricken, and many of them rushed out and took refuge under the coaches. Captain J. E. Fitz, the oldest conductor in the service of the company, was in charge, and by his coolness prevented a panic among the passengers. The train came on to Richmond, and the coaches were the most dilapidated ever hauled into this city. The coaches are in the Chesapeake and Ohio sheds for repairs.

The impression prevails with boatmen the Queen is a sure ten-mile an hour steamer, including way business, which will place her on record as the fastest sternwheel boat on our waters.

He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial bottles free at J. James Wood's drug store.

### BIG DAMAGES.

Judgment for \$5,500 Rendered in the Case of Thomas Against the Street Railway Company.

The jury in the case of Isaac Thomas' administrator against the Maysville Street Railway Company returned a verdict Tuesday afternoon in favor of plaintiff, and awarded damages in the sum of \$5,500. The unfortunate affair leading up to the suit occurred one evening last spring.

Young Thomas, it will be remembered, met a terrible death, on the evening in question, by coming in contact with a live electric wire. He had gone to a grocery near the street car barn in the Sixth ward. The day had been blustery and rainy, and as he was walking back home he came in contact with a broken guy wire that had been blown loose and was hanging down at the side of the street. Not realizing his danger, he threw up his hand as if to brush the wire aside, and the next instant was caught in the grip of the terrible current, and was almost roasted alive. He survived but a short time.

His father, J. H. Thomas, a few weeks later qualified as administrator and sued the company for \$20,000 damages, the Maysville Gas Company and the Citizens Gas Company being made defendants also. The suit was dismissed Monday as far as the two gas companies were concerned.

Judge Cole, Judge Phister and Mr. Allan D. Cole were attorneys for plaintiff, while defendants were represented by Messrs. A. M. J. Cochran and W. H. Wadsworth.

The verdict of the jury was not a unanimous one, as one of the jurors refused to sign it.

A motion for a new trial was made this morning.

MR. HOWARD SINCLAIR, a revenue officer formerly located here, had an exciting experience while returning to Paris on his wheel from Peacock distillery. He started to pass a cart containing two men, one leading a horse, when the animal kicked at Sinclair and landed him on the roadside. One of the horses feet smashed the front wheel of Sinclair's bicycle and the other foot struck the saddle. The horse then jerked one of the men out of the cart but he and Sinclair both escaped injury.

It Causes the First Serious Disagreement Among Republican Senators.

WASHINGTON, June 23.—An exciting debate marked the consideration of the wool schedule, which began in the senate yesterday. It developed the first serious disagreement on the Republican side of the chamber, and led to a warm personal exchange between Senators Carter of Montana and Foraker of Ohio on one hand, and Mr. Allison of Iowa, in charge of the bill, on the other. Mr. Foraker asserted that an agreement concerning rates on certain wools was being violated, and that under such circumstances every senator would be free to act for himself. Mr. Allison, with great vehemence, declared that he could not be driven by threats.

Mr. Carter, who had aroused the storm, endeavored to have the paragraphs relating to carpet wools go over, with a view to securing some united action, but Mr. Vest, in an ironical speech, objected to delaying the era of prosperity, and postponing public business while Republican senators held a caucus. Mr. Teller of Colorado also spoke against delay and took occasion to say he would not vote for the bill unless objectionable features were eliminated.

Aside from this stormy interruption, fair progress was made on the wool schedule. The duty on first class wool was agreed to at 10 cents per pound, and on second class wool 11 cents, which is between the house and senate rates in each case. The rates on third class wools went over. Most of the other amendments related to the classification of wools. On one of the amendments Mr. Jones of Arkansas spoke against the entire schedule as severely oppressive on the consumers of woolen goods.

### BREEZE OF PROSPERITY.

[BY JOSEPH C. GEIS]  
Oh breeze of prosperity come right along: Sweet Willie promised to send you strong. The masses are waiting with open hand To scatter the gold all over the land.

Now, breeze of prosperity, do not wait, Sweep like wild fire over our State, Just tell Uncle Sam you cannot stop, For silver is going to get on top.

You'll be like the hare and tortoise friend, And Bryan will catch you in the end. If you do not open up your mills And send prosperity o'er vale and hills.

Just look at that hero, a boy so bright, His methods tell us silver is right. If you want to see the gold bugs run Just let them face this gatling gun.

The mills are closed, the harvest is past, And the reaper comes with silver at last, Too much red tape will be the cry, The gold bugs must forever die.

### LOUISVILLE TOBACCO MARKET.

Large Sales Last Week and the Highest Prices of the Season—All Grades Advanced.

[Furnished by Glover & Durrett, Louisville Tobacco Market.]

Sales on our market for the week just closed amount to 3,276 hhd., with receipts for the same period 2,536 hhd. Sales on our market since January 1st amount to 86,374 hhd. Sales of the crop of 1896 on our market to this date amount to 74,164 hhd.

We have had large sales on our market the past week, with the highest prices of the season, all grades considered. The market has shown an advance over the prices of the previous week on all grades and all kinds of burley tobacco, with the exception of common grades both old and new in bad condition. The most marked advance of the week was on good to fine grades of red leaf, frequent sales of which were made at prices from \$12 to \$18 with a few sales at figures from \$18 to \$21. Our market during the week displayed more of the old time snap and vigor than has characterized it for many months past.

Within the past few days we have had fine rains over the greater part of the burley section, affording in most places a splendid season for setting the crop, and no doubt the intended crop (which cannot be estimated at more than 75 per cent. of last year's acreage) will be in the field at the close of the week. The recent rains, as regards the dark producing section, have been local, affording in some neighborhoods splendid seasons for putting out the crop, while in other localities the planting has not been increased during the week.

The following quotations fairly represent our market for burley tobacco (1896) crop:  
Trash (dark or damaged).....\$ 2.00@3.00

The above quotations are not applicable to green and frosted crops.
